EDUCATION

Sri Eshwar College of Engineering.	B.TECH(IT)	CGPA:7.97(upto 5 th sem)	2022-2026
Sri Visweswara Vidyalaya Matric Hr Sec School	HSC	91.8%	2020-2022
Sri Visweswara Vidyalaya Matric Hr Sec School	SSLC	82.4%	2019-2020

INTERNSHIP

MERN STACK-BETTER TOMORROW 2024

Applied MERN Stack expertise to develop secure APIs and implement database connections, user authentication in dynamic web applications. Collaborated within a team environment to gain practical experience with cutting-edge technologies. Consistently delivered high-quality code while adhering to industry best practices.

PROJECTS

ResX—College Resource Management and Booking System 2024

Developed ResX, a college resource management and booking system for efficient allocation and tracking of resources like rooms and equipment. Implemented a conflict management algorithm to resolve scheduling clashes. Created an intuitive UI/UX for both administrators and students, enhancing system efficiency with real-time tracking and notifications

Tech Stack: MERN(MongoDB, Express, React, Node.js)

MedX 2024

MedX is an online system designed to digitalize prescriptions, making it easier for doctors to access and diagnose patient information. The platform allows users to book appointments with doctors, and as confirmation, patients receive automated emails. It also includes features for tracking ongoing medications and managing prescriptions. A connected database securely stores and manages all patient data, including medical histories and prescription details, streamlining the entire healthcare process

Tech Stack: MERN(MongoDB, ReactJs, Express.js, Node.js)

FOOD DELIVERY WEBSITE 2024

A food ordering application built with the MERN stack, featuring an intuitive interface for browsing menus from different hotels, placing orders, utilizing mapping facilities, and managing user accounts efficiently. Incorporates React Native and Expo for mobile experiences. Implemented secure payment gateways to ensure safe transactions for users.

Tech Stack: MERN(MongoDB, ReactJs, Express.js, Node.js, StripePayment)

WEATHER APP

Developed a responsive weather forecasting web application using the MERN stack. The application integrates real-time data from WeatherAPI to provide users with accurate current weather conditions and location-based search functionality. Users can search by city for instant results.

Tech Stack: MERN(MongoDB, ReactJs, Express.js, Node.js)

CERTIFICATIONS

Certified in Mastering Data Structures using C and C++ from Udemy, to enhance my analytical thinking capabilities

Certified in C Programming for Beginners from Udemy, to develop a solid foundation in programming skills

ACHIEVEMENTS

Grand Tech Carnival: Secured 1st among 15 teams in Sathyabama University (MedX) 2024

Bit-N-Build: Participated among 100 teams conducted by Rajalakshmi Engineering College (ResX)

Leetcode: Max Contest Rating: 1440 | Solved over 160 problems | [profile](#)

Hackerrank: JAVA-Silver Level 3 stars, C++ Silver Level-3 stars | [profile](#)

ProjectExpo: Secured 3rd among 15 teams (StockPricePrediction) 2024

ProjectExpo: Secured 4th among 20 teams (ParkingSlot Detector) 2023

Skillathon: Secured 6th among 63 teams across state (MedicalChatbot) 2023

SKILLS

Languages C++ Java HTML CSS JavaScript SQL

Core Data Structures and Algorithms OOP

Design Microservices

Frameworks ReactJs, SpringBoot
